# How to Configure Your Own Search Engines?
(How to set Dictionary.com for English word Dictionary.)

- Step1. Search for your word, bike for example in the website you want to configure into the app.

- Step2. Copy the whole URL address in the memo app etc.

  URL : https://www.dictionary.com/browse/bike

- Step3. Replace the keyword, in this case bike with @

  URL Modified : https://www.dictionary.com/browse/@

- Step4. put the text(URL with @) into the url in the app.
